**DESIGNING  
YOUR LIFE**

Certified DYL  
Workshop  
Provider

Engineered by Renowned

# Stanford Professors

and bestselling authors

# Bill Burnett & Dave Evans.

## Impacting Education: Transforming Lives of Thousands of Students Worldwide

The “Designing Your Life” process has evolved through rigorous research at Stanford’s Design Your Life Lab (d.life).

This Lab teaches courses, offers programs, and conducts research that applies Design Thinking’s innovation principles to life, education, and career challenges.

Watch a 3-min trailer to the DYL framework

**Framework validated for over 15 years.**  
**Based on Design Thinking and informed by Behavioural Science, Positive Psychology and Philosophy.**

**This isn't just theory. It's a toolset for life.**

**DESIGN THE MOST IMPORTANT PROJECT OF YOUR LIFE: YOUR LIFE!**

# What They Walk Away With — and carry for life.

# Programme Journey

We don't provide a checklist.  
We provide a compass.

## Discovering

### Reflecting on Your Past | Discovering 'Self'

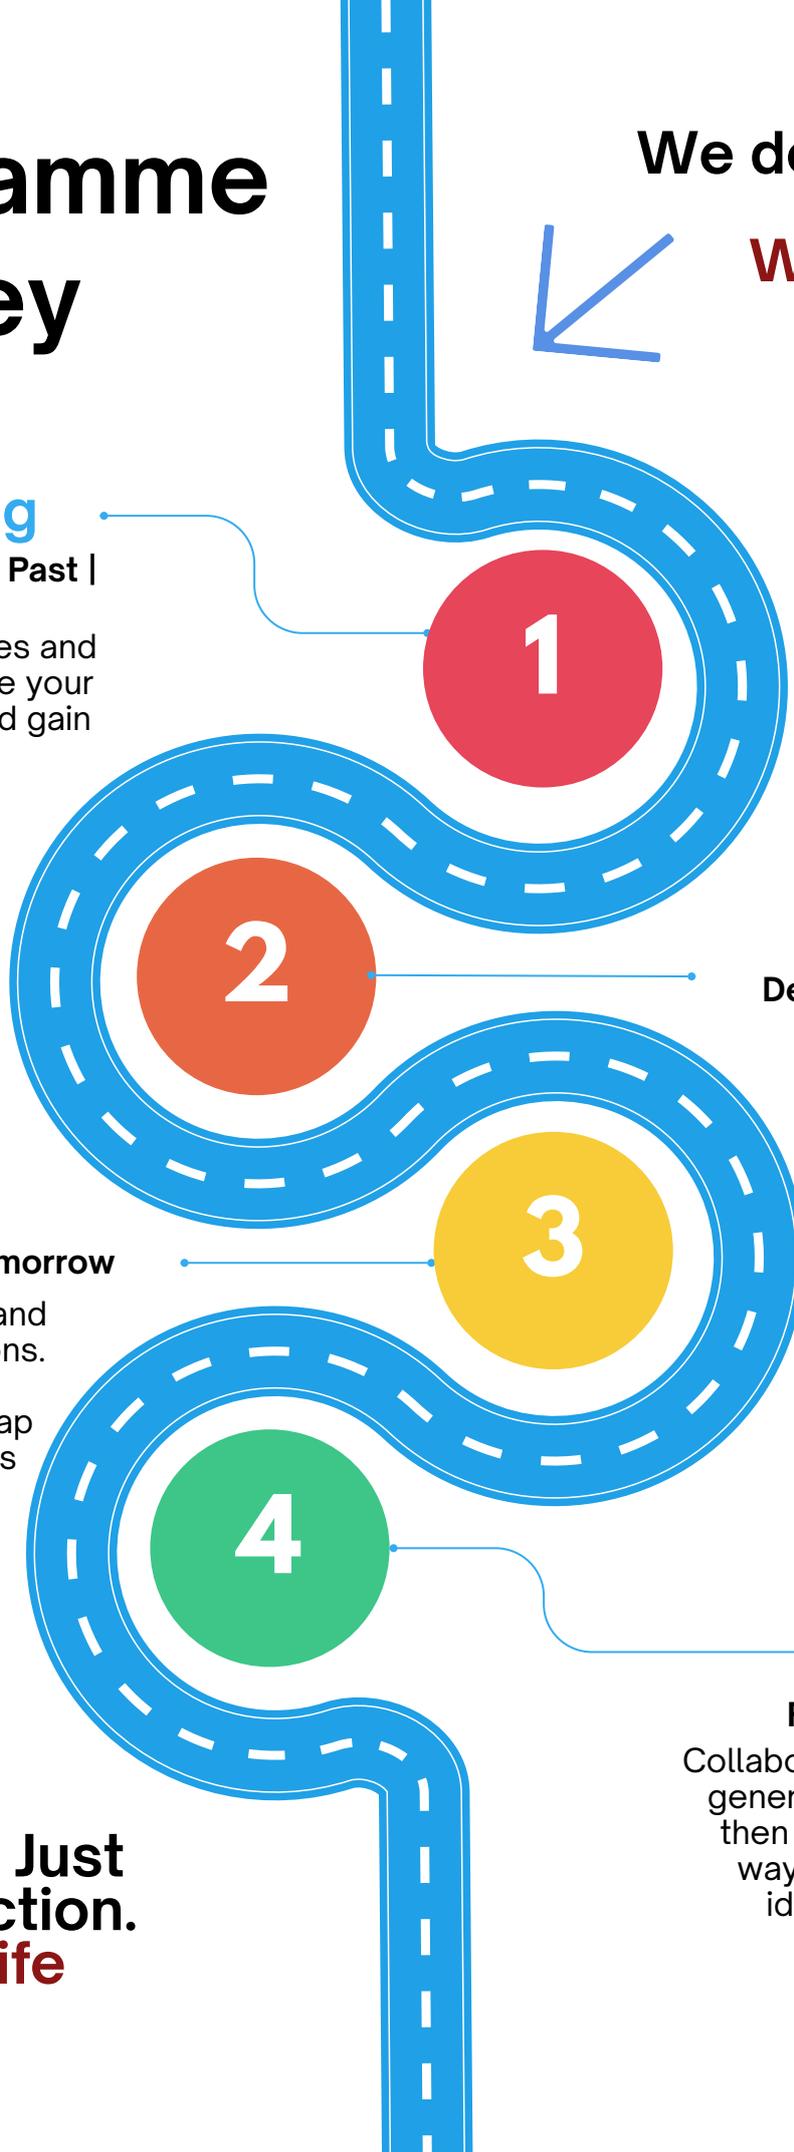

Discover your values and purpose. Overcome your 'limiting beliefs' and gain clarity to mobilise motivations.

## Dreaming

### Designing Your Tomorrow

Define your goals and possible destinations. Create 3 distinct 'Odysseys', and map a future that excites you.

This Is Not Just Self-Reflection.  
It Is Real-Life Direction.

## Designing

### Designing Your Today

What drains you?  
What excites you?  
Chart, track, reflect.  
Explore and design your balance.  
Access your 'flow'.

## Doing

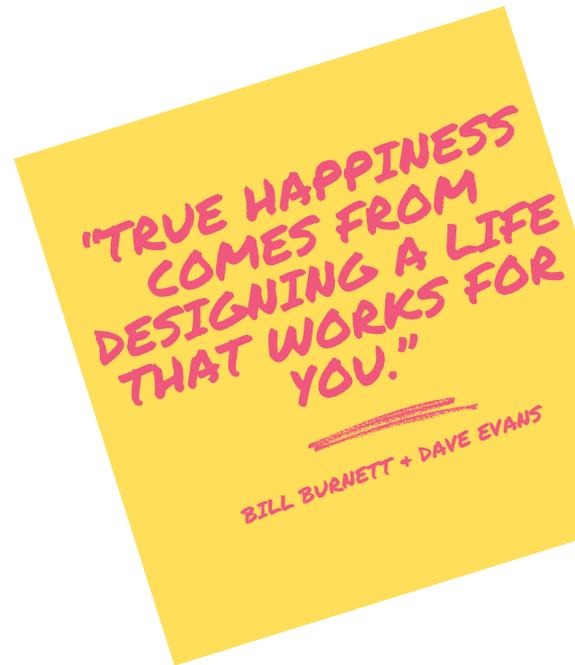

### From Ideas to Action

Collaborate, brainstorm and generate lots of ideas and then implement in a small way. 'Prototype' and test ideas to bring them to real world.

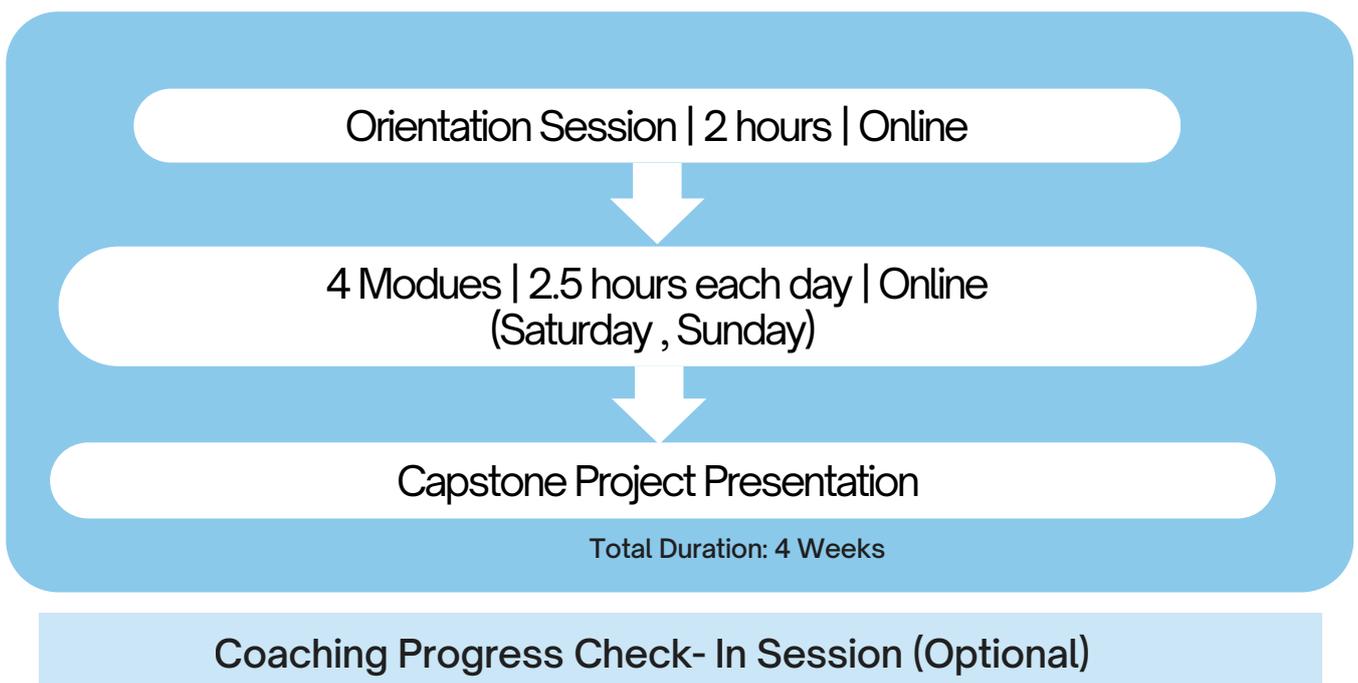

# When students **design** their future, they **redesign** the world.

## Programme Outcomes:

- Build your **Personal Compass**.
- Develop a “**Designer’s Mindset**”.
- Unleash **Creative Confidence**.
- **Get unstuck**. Get moving.
- Envision your **Multiple Futures**.
- Turn **Ideas to Reality**.
